## Project Profile

<b>Contact Information</b>	
Full Name	
Phone	
E-Mail	
Mailing Address	

<b>Your Project in Short</b>							
<i>Please check your choice of scale</i>							
Scale	Z	N	TT	H0	S	0	G
Include Narrow Gauge?			Yes	No			
If Yes, which track gauge:			Meter (m)		3' (n3)		2' (n2 ½)
Based on prototype			No	Yes	Railroad Name		
If no particular prototype, please describe which theme you have in mind for your layout							
Era to be modeled							
Season	Winter Spring Summer Fall						
Any special thoughts?

## Project Profile *(continued)*

<b>Project Environment</b>					
Space for the layout is located in: (please check one)					
Basement	1 <sup>st</sup> Floor	Upper Floor	Attic	Garage	Dedicated Building
Does the location have					
Climate Control	Yes	No			
Dust Control (Filter added to AC)	Yes	No			
Minimum aisle space (we recommend no less than 24")					inches
Bench Height (in inches)			Lowest to		highest
Maximum acceptable reach to track (we recommend max. 30") in inches :					
Is a Duck-Under or Lift-Out acceptable?					Yes No
Access to building mechanicals required (ducts, panels) ?					Yes No
Benchwork finish:			None		
Curtain	Drape	Panels	Cabinets or other storage		
Other:

## Project Profile *(continued)*

<b>Layout Considerations</b>			
Configuration :	Point-to-Point	Continuous Loop	Both
Track to Scenery Ratio ( eg. 50%/50%)	Track	%	Scenery %
We estimate the required minimum radius for the layout based on the maximum length of rolling stock you want to operate. Please check one of the following:			
Long	70' plus passenger cars, modern era freight cars, 4-8-4 Steam engines, modern 6 axle diesel engines		
Medium	Generally 40's to 70's, 50' passenger cars, 50' to 60' freight cars		
Short	Industrial and pre-1900 railroads, small steamers (2-8-0 and smaller), 4-axle diesel switchers, 40' cars maximum		
Trolley & Traction	Trolleys and Interurban equipment only, Dockside steam and small diesel switchers		
Please note any special layout considerations:

## Project Profile *(continued)*

<b>Operation Considerations</b>			
What type of operation do you want to run (please check all that apply)			
Multi-Train	Classification Yard	Switching / Peddler freight	Passenger
Interchange	Lake or river ferry	Port / Barge Terminal	
Number of trains in simultaneous operation?			
How many potential operators?			
Operators will be	Adults	Teens	Children
Which type of operation control will you require (please check all that apply)?			
Central Switch Panel	Local Switch Panels	Conventional DC Block system	Digital Command Control
Walk-Around-Control			
Any other operation considerations:

## Project Profile *(continued)*

<b>Project Services Required</b> <i>(please check all that apply)</i>	
CAD Design	Includes track scheme, benchwork, basic scenery, inventory, delivered as PDF file
Benchwork	Benchwork construction in modules for transport or stationary on-site
Trackwork	Includes all track and turnouts laid without ballasting using commercially available track
Catenary	Overhead wire for traction or trolley operations
Basic Electrical	Track wiring including DCC system
Advanced Electrical	Includes signals, detection, occupancy, special effects
Rough scenery	Includes basic scenery contours, bridges, bridge abutments, does not include ground cover or trees
Finished Scenery	Ground cover, trees/plants, rock formations, ballasting
Structures	Kits, kit bashed, or scratch-built
Trackside details	People, vehicles, and other fine details
Complete layout	All of the above

### **IMPORTANT!**

**Please include a sketch with your filled in project profile. It does not need to be to scale but needs all relevant dimensions drawn in. Please indicate window and door locations with dimensions, as well as any obstacles like ducts, panels, etc.**

Thank you for completing this Project Profile. It will be a very useful tool when we talk and will guide us in building the layout of your dreams for you. Should you have questions or concerns not addressed in the Profile, please feel free to call us at **1-407-928-8120** or contact us by E-mail at [info@farbeyondrails.net](mailto:info@farbeyondrails.net).

We look forward to serving you!  
 Erhard Baltrusch
